OVERVIEW OF QUALIFICATION

The VTCT Level 3 Certificate in Assessing Vocational Achievement is a regulated vocational qualification that will prepare practitioners for a career in academic and clinical assessment.

The qualification is delivered by MAP-IQ and awarded by VTCT an OFQUAL regulated awarding organisation.

The MAP-IQ route to qualification has been purposely designed to support non-surgical cosmetic (NSC) practitioners working in education and training to evidence competency and achieve a regulated qualification in the assessment of others.

The qualification is delivered and assessed completely online, therefore, it is accessible to all, regardless of geographical location.

WHO IS MAP-IQ?

MAP-IQ is an OFQUAL regulated, VTCT accredited and JCCP approved training and assessment provider. We offer a range of regulated educational qualifications to support NSC practitioners to attain competency in teaching, assessment and IQA roles.

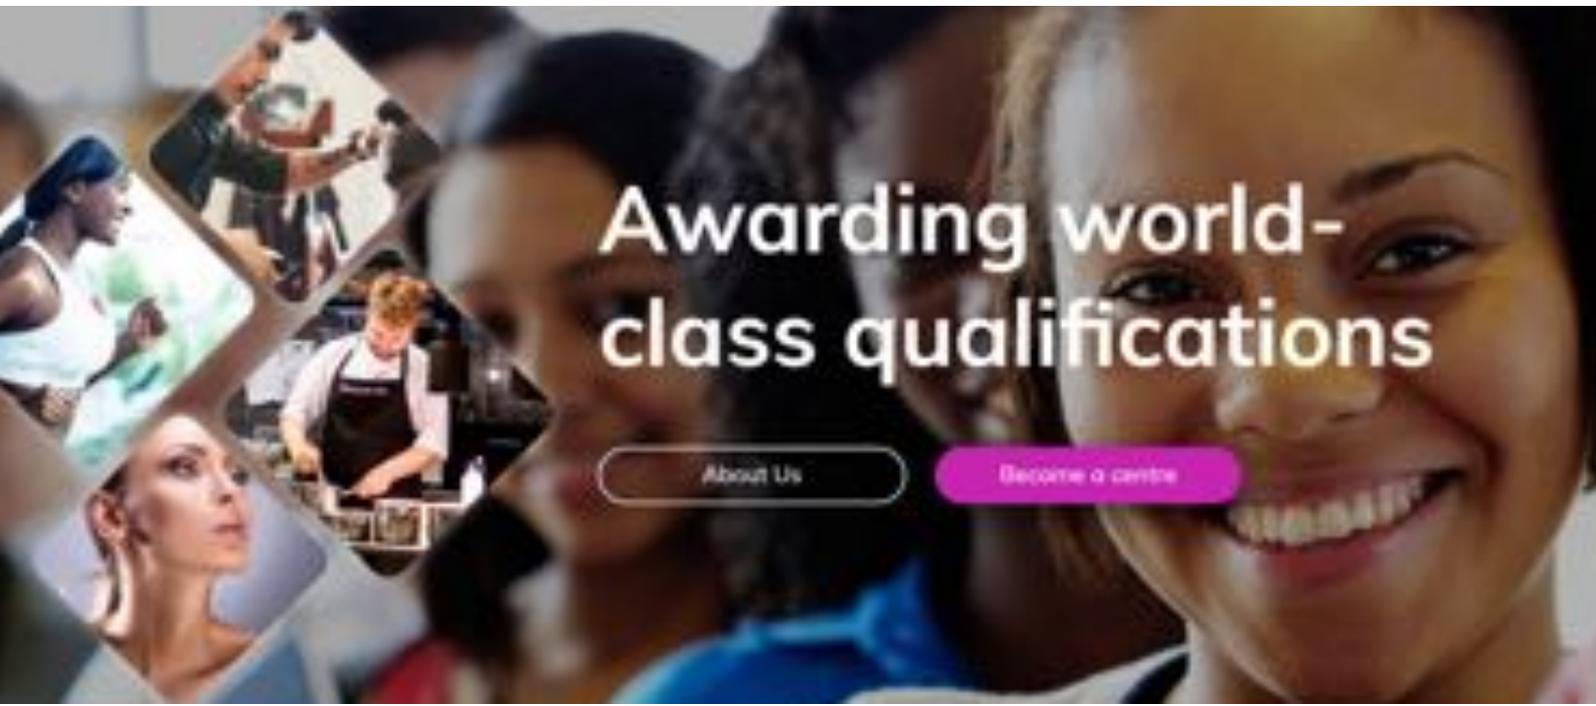

In addition, we offer a fasttrack RPEL route to a level 7 Diploma in Clinical Aesthetics. You can find out more information by visiting our website at: www.map-iq.org

WHO IS VTCT?

The Vocational Training Charitable Trust (VTCT) is an OFQUAL regulated Awarding Organisation (AO).

VTCT is the UK's market-leading specialist vocational and technical awarding organisation and end-point assessment organisation (EPAO) that delivers a range of sector qualifications.

VTCT educational and quality assurance qualifications range from level 3 to level 5 and include; *Education and Training, Vocational Assessment, Internal Quality Assurance and External Quality Assurance*. VTCT has over 2,500 approved training centres worldwide with over 120,000 learners and apprentices every year.

ABOUT THE LEVEL 3 ASSESSOR QUALIFICATION

The Level 3 Certificate in Assessing Vocational Achievement comprises of three units. The MAP-IQ route to qualification is unique as it offers a fourth unit with a specific focus on assessment in non-surgical cosmetic practice.

Unit 1: Understanding the principles and practices of assessment.

Unit 2: Assess occupational competence in the clinical work environment.

Unit 3: Assess vocational skills - knowledge and understanding.

Unit 4: Assess underpinning knowledge and clinical skills in non-surgical cosmetic practice.

Each unit has a set of learning outcomes that are mapped to the relevant National Occupational Standards (NOS) and Joint Council of Cosmetic Practitioners (JCCP) education and training standards.

Guided learning Hours (GLHs)-75

Total Credits (RQF)-15

THE ASSESSMENT PROCESS

Learner competency is assessed through a three-stage assessment process.

STAGE 1 WRITTEN ASSIGNMENT

Stage 1 of the assessment process requires the learner to complete a written assignment in the form of short answer questions (SARs) to evidence competency to meet the learning outcomes for unit 1.

STAGE 2 KNOWLEDGE ASSESSMENT

Stage 2 requires the learner to complete two knowledge-based assessments with two different learners to demonstrate competency to meet the learning outcomes for unit 3.

STAGE 3 PRACTICAL SKILL ASSESSMENT

Stage 3 requires the learner to conduct two practical skill assessments with two different learners to demonstrate competency to meet the learning outcomes for unit 2.

Stage 1 - is flexible and conducted in the learners' own time and submitted to MAP-IQ for assessment.

Stage 2 - is flexible and conducted in the learners' own time and submitted to MAP-IQ for assessment.

Stage 3 - is flexible and conducted in the learners' clinical environment and assessed via an online platform.

Both new learners and RPEL learners have to undertake the three-stage assessment process.

WHY CHOOSE MAP-IQ?

- Created to support regulatory requirements for non-surgical cosmetic education and training providers.
- OFQUAL regulated and VTCT approved qualification.
- Purposely designed to support trainee assessors undertaking assessment in non-surgical cosmetic practice.
- Designed by MAP-IQs expert non-surgical cosmetic practitioners and educationalists.
- Achievable in weeks or up to 12 months.
- Flexible access 24/7, 365 days a year from anywhere in the world.
- Delivered and assessed entirely online by MAP-IQs qualified educationalists.
- Up to date evidence-based learning materials and resources.
- A well-defined three-stage assessment process.
- A cost-effective route to a sector-focused qualification.

ENTRY REQUIREMENTS

As with any other field of practice, you will need to be 'occupationally competent' and experienced in the area that you will be assessing.

It should be noted that the MAP-IQ assessor qualification has been purposely designed to support assessment in non-surgical cosmetic injectable practice.

Applicants are required to meet the following criteria

- Foundation training in botulinum toxin and soft tissue fillers
- Hands-on experience in administering botulinum toxin and soft tissue fillers.

- Hold full indemnity insurance cover for aesthetic procedures (must include botulinum toxin and dermal fillers),
- International practitioners must hold an English language level of IELTS 7.0 in all components or equivalent if English is not a first language your first language.
